family members. These must include requirements for supervision of the CPP participant when staff is not present;

## APPENDIX C-2 Post-Eligibility

### GENERAL INSTRUCTIONS

ALL Home and Community-Based waiver recipients found eligible under 435.217 are subject to post-eligibility calculations.

Eligibility and post-eligibility are two separate processes with two separate calculations. Eligibility determines whether a person may be served on the waiver. Post-eligibility determines the amount (if any) by which Medicaid reduces its payment for services furnished to a particular individual. By doing so, post-eligibility determines the amount (if any) for which an individual is liable to pay for the cost of waiver services.

An eligibility determination (and periodic redetermination) must be made for each person served on the waiver.

Post-eligibility calculations are made ONLY for persons found eligible under 435.217.

Post-eligibility determinations must be made for all groups of individuals who would be eligible for Medicaid if they were in a medical institution and needed home and community-based services in order to remain in the community (435.217). For individuals whose eligibility is not determined under the spousal rules (1924 of the Social Security Act), the State must use the regular post-eligibility rules at 435.726 and 435.735. However, for persons found eligible for Medicaid using the spousal impoverishment rules, the State has two options with regard to the application of post-eligibility rules:

OPTION 1: The State may use the post-eligibility (PE) rules under 42 CFR 435.726 and 435.735 just as it does for other individuals found eligible under 435.217 or;

OPTION 2: it may use the spousal post-eligibility rules under 1924.

### **REGULAR POST-ELIGIBILITY RULES--435.726 and 435.735**

- o The State must provide an amount for the maintenance needs of the individual. This amount must be based upon a reasonable assessment of the individual's needs in the community.
- o If the individual is living with his or her spouse, or if the individual is living in the community and the spouse is living at home, the State must protect an additional amount for the spouse's maintenance. This amount is limited by the highest appropriate income standard for cash assistance, or the medically needy standard. The State may choose which standard to apply.

- o If the individual's spouse is not living in the individual's home, no maintenance amount is protected for that spouse's needs.
- o If other family members are living with the individual, an additional amount is protected for their needs. This amount is limited by the AFDC eligibility standard for a family of the same size or by the appropriate medically needy standard for a family of the same size. The State may choose which standard to apply.

### **SPOUSAL POST-ELIGIBILITY--1924**

When a person who is eligible as a member of a 42 CFR 435.217 group has a community spouse, the State may treat the individual as if he or she is institutionalized and apply the post-eligibility rules of 1924 of the Act (protection against spousal impoverishment) instead of the rules under 42 CFR 435.726 and 435.735. The 1924 post-eligibility rules provide for a more generous community spouse and family allowance than the rules under 42 CFR 435.726 and 435.735.

The spousal protection rules also provide for protecting a personal needs allowance (PNA) "described in 1902(q)(1)" for the needs of the institutionalized individual. This is an allowance "which is reasonable in amount for clothes and other personal needs of the individual . . . while in an institution." For institutionalized individuals this amount could be as low as \$30 per month, but must be a reasonable amount for clothing and other personal needs of an individual while in an institution. Unlike institutionalized individuals whose room and board are covered by Medicaid, the personal needs of the home and community-based services recipient must include a reasonable amount for food and shelter as well as for clothing. Therefore, the \$30 PNA may not be a reasonable amount when the waiver recipient is living in the community.

Therefore, States which elect to treat home and community-based services waiver participants with community spouses under the 1924 spousal rule may use as the personal needs allowance the maintenance amount which the State has elected for home and community-based services waiver participants who do not have community spouses.

**NOTE:** If the State elects to use the institutional PNA, it must demonstrate that this is a reasonable amount to cover the cost of the individual's maintenance needs in the community (see OPTION 2).

**POST ELIGIBILITY****REGULAR POST ELIGIBILITY**

1.   X   **SSI State.** The State is using the post-eligibility rules at 42 CFR 435.726. Payment for home and community-based waiver services are reduced by the amount remaining after deduction the following amounts from the waiver recipients income.

- 2.) An amount equal to the actual estimated room and board cost for the residence in which the recipient lives;
- 3.) An amount equal to the first \$20 of the recipient's unearned or earned income [as provided for SSI recipients at 20 C.F.R. 416.1124(c)(12)];
- 4.) An amount for employed individuals equal to the first \$65 of the recipient's earned income, if any [as provided for SSI recipients at 20 C.F.R. 416.1112(c)(4)] plus one-half of any remaining earned income [as provided for SSI recipients at 20 C.F.R. 416.1112(c)(6)];

except that no recipient shall be allowed an individual maintenance needs deduction of less than the SSI payment standard.

## **ATTACHMENT D-3-a**

### **PROCESS AND CRITERIA USED TO ESTABLISH THE NEED FOR THE LEVEL OF CARE PROVIDED IN AN ICF/MR**

Attachment D-3-a-1 is an example of the form used to certify the need for the level of care provided in an ICF/MR for placement on the waiver. The individual who completes the evaluation verifying that the client meets the waiver level of care requirement signs this form.

The process used to evaluate (and reevaluate) applicants' need for ICF/MR level of care is two-stage consisting of:

- (1) Assessment of the individual's need for support; and
- (2) Review and certification by a DDD case/resource manager or Social Worker.

#### Protocols for Determination of the Need for ICF/MR Level of Care

An employee of the Division of Developmental Disabilities who is a case/resource manager or a social worker makes determination/verification of the need for ICF/MR level of care. Job specifications for these job classes are included as Attachments D-3-b and D-3-c.

When making the assessment of the need for ICF/MR level of care, the case/resource manager or social worker assesses the applicant's healthcare needs, and physical, intellectual and behavioral functioning, as indicated by the assessment protocol and as reflected in other information (e.g., the individual service plan) as necessary.

Scoring of the needs assessments and/or information from other available supporting information (e.g., the individual service plan, psychological evaluations, and other professional and medical evaluations) enables staff to identify the variety of individuals who require an ICF/MR level of care. This includes: 1) individuals who have low levels of cognitive functioning and require support and/or training in a variety of areas, such as activities of daily living and interpersonal relations; 2) individuals (e.g. with cerebral palsy) who have high levels of cognitive functioning and require support and/or training in areas such as medical needs, activities of daily living, and community integration; 3) individuals (e.g., with poor impulse control and/or judgment due to neurological impairment, sometimes in combination with a diagnosis of mental illness) who have varying levels of cognitive functioning, may require little support with activities of daily living, but need a high degree of support, supervision, and/or training due to behaviors that put themselves and/or others at risk, and 4) individuals who may require assistance with activities of daily living, may have varying levels of cognitive functioning, require extensive support to develop and maintain support systems, and require extensive support to work.

## **ATTACHMENT D-3-a (CONTINUED)**

### **PROCESS AND CRITERIA USED TO ESTABLISH THE NEED FOR THE LEVEL OF CARE PROVIDED IN AN ICF/MR**

#### **Assessment-Current Support Needs**

Two versions of the Assessment-Current Support Needs protocol are used in the determination of the need for ICF/MR level of care process. One is for children (ages 0 - 12) and the other is for both adolescents (ages 13 - 18) and adults (age 18 +).

Copies of the Child's Assessment-Current Support Needs (Attachment D-3-a-3) and the Assessment-Current Support Needs used for adolescents and adults (Attachment D-3-a-4) reflect the scoring of these protocols for determination of the need for ICF/MR level of care.

For children, the protocol should reflect a need for support to the left of the double vertical line (i.e., at the 'A' or 'B' level except for item # 9) or the following nine items: 1, 2, 3, 4, 5, 7, 8, 9, and 10. Children from birth through age 5 must have five of nine to the left of the double vertical line. Children ages 6 - 12 must have seven of nine to the left of the double vertical line. Fewer items are required for young children because some of the items (e.g., 1, 2, 3, 7) either do not apply to them (# 7) or do not differentiate among them (e.g., all young children require assistance with tasks such as dressing toileting and eating). If the score received does not meet the criteria listed above, other available supporting information (e.g., the individual service plan, psychological evaluations, and other professional and medical evaluations) may be reviewed to determine whether the individual requires ICF/MR level of care.

For adolescents (age 13 and above) and adults, the score across the 20 items should total at least 40. The scoring is indicated above the alternatives for each item. If the score is not at least 40, other available supporting information (e.g., the individual service plan, psychological evaluations, and other professional and medical evaluations) may be reviewed to determine whether the individual requires ICF/MR level of care.

Differential points are assigned to items on the adolescent/adult assessment to reflect the varying support, supervision, and training needs of individuals who require an ICF/MR level of care. The items that reflect the need for support to maintain health and safety (e.g., items 1, 3, 20), to work (item 14), and to deal with behavior problems (item 19), as well as the availability of others to provide support (e.g., item 15) are scored higher than items that reflect the need for support with activities of daily living (e.g., items 4 through 8), relating to specific individuals (e.g., items 11, 12), and participation in the community (e.g., items 10, 17, 12).

If the case/resource manager or social worker determines from the assessment and/or

other available supporting information (e.g., the individual service plan, psychological evaluations, social work evaluations, nursing evaluations, speech and hearing screenings, and/or other professional evaluations as necessary) that the applicant requires an ICF/MR level of care, s/he documents this determination using a form (e.g., Attachment D-3-a-2) that is included in the official client record.

DDD quality control staff will conduct ongoing reviews of eligibility determinations to ensure consistency and accuracy.

If the case/resource manager or social worker concludes that the applicant does not require the level of care provided in an ICF/MR, then the individual is not placed on the Waiver. This determination is also documented with Attachment D-3-a-2. A supervisor reviews all determinations of ineligibility (i.e., due to not requiring ICF/MR level of care) to ensure consistency and accuracy.

### **Process for those seeking ICF/MR admission**

The form for determining level of care is the same for those seeking either community-based services or admission to an ICF/MR. The form for adolescents and adults is Assessment – Current Support Needs (Adolescent to Adult). The form for children is Child's Assessment – Current Support Needs. The qualifying scores are identical for either HCBS or ICF/MR admission.

Personal care needs for either HCBS or ICF/MR admission may be assessed using the Comprehensive assessment reporting and evaluation tool (CARE).

People who request ICF/MR admission are informed of available community services and resources and are offered assistance to implement a safe community-based care plan. If ICF/MR placement is denied, the person and his/her legal representative is notified in writing of the decision and given information about appeal rights. A form for requesting a fair hearing is enclosed with the written notification.

### **Special considerations for the Public Safety Waiver:**

In addition to the process described above for determining ICF/MR level of care, individuals who may be eligible for this waiver are assessed for the presence of Community Protection (CP) issues. See attachment D-3-d INDIVIDUAL WITH COMMUNITY PROTECTION ISSUES.

**Personal "Snapshot"**

Please provide a brief description of the waiver participant and their situation as of this plan, i.e. who they are: male, female, age, etc. and where they live, major issues in their life.

**SECTION TWO – HEALTH INFORMATION**

Remember! Get the dates.

Because dental and medical visits are so important to staying in the best of health, be sure there is a discussion explaining the reasons/benefits and offer assistance to connect with a doctor or dentist if needed.

If a refusal to see a doctor or dentist will jeopardize the person's health & welfare, a discussion will need to occur regarding their ability to receive waiver services.

This is very important information and an opportunity to make sure that proper medication management is happening for this person.

## **SECTION FOUR – Determining Health & Welfare Needs**

If this is an initial plan this section does not have to be completed.

If this is an annual review, facilitate a discussion looking at how the current plan is working, what is working well and should continue, changes that need to be made and any new issues to be addressed.

These questions must be addressed to the waiver participant, their family/legal representative and any current providers.

### **Review of Current Plan**

How are things going?

Which services and supports are meeting the individual's needs and should be continued as is?

Which services and supports are not adequately meeting the individual's needs, requiring some change?

Are there new needs to be addressed?

**If the individual has a Comprehensive Assessment (CA), school plan, (IEP, 504 Plan), etc. review and include any needs information here.**

Name: \_\_\_\_\_

It is vital to find out what the person and/or their family/guardian, feel is needed to meet the waiver participant's health and welfare needs.

This box should contain **only** items in addition to those already identified above.

### Any Other Needs identified by the person/family/guardian

### **STOP**

**The team must discuss all the needs identified and agree which are necessary to ensure the waiver participant's health & welfare. Those must be addressed by this plan. If there are unmet health & welfare needs that will not be addressed by this plan document the reason why below.**

Next discuss services and supports that might meet the agreed upon needs. This discussion must include ideas about unpaid as well as paid supports; state plan services as well as waiver services. Every waiver participant **MUST** be offered choice of qualified waiver providers. If a person has a current provider they are not happy with, the issue must be addressed and a plan of action arrived at that all are comfortable with.

**Once the team feels they have a good idea of how to best meet the agreed upon needs go onto outline all the steps necessary to put the plan in place.**

**Short Term Memory**

Short term memory covers a time frame from a few minutes ago up to 1 to 3 days.

<p><b>Recent Memory</b></p> <p>Ask the individual to describe a recent event that you may know or be able to verify. This might be a recent meal, the weather the day before, events in recent news or a television show they watched yesterday. Ask him/her for details.</p>	<p><b>And</b></p>	<p><b>Delayed recall after Interference</b></p> <p>Ask the individual if you may test his memory. Then say the names of three unrelated objects clearly and slowly (e.g. table, comb, tree), about one second for each. Ask the individual to repeat them to verify that you were heard and understood, and ask him/her to remember the objects because you will ask him/her about them later. Proceed to talk about something else for five minutes, and then ask the individual to recall the objects. If the individual is unable to recall all three objects, there is evidence of memory problems</p>

**Long Term Memory and Orientation**

Long term memory extends from 6 months ago up to all of the individual's lifetime. To assess long term memory, ask the individual about events that occurred in their childhood. Ask them about their life story. What were/are their parents' names, siblings' names, and birth order? What is their spouses name if they are married? Do they have any children, how many, and what are their names. Ask them to tell you about other significant events that occurred in their life. Verify answers for accuracy from other individuals who know this person.

## APPENDIX F AUDIT TRAIL

## a. DESCRIPTION OF PROCESS

1. As required by sections 1905(a) and 1902(a)(32) of the Social Security Act, payments will be made by the Medicaid agency directly to the providers of waiver and State plan services.

As allowed under section 1902(a)(32)(B) of the Social Security Act, payment for some Community Participation services (i.e., child development, community access, pre- vocational and supported employment services, person-to- person, and individual and family assistance) is made to governmental agencies (counties).

2. As required by section 1902(a)(27) of the Social Security Act, there will be a provider agreement between the Medicaid agency and each provider of services under the waiver.

3. Method of payments (check one):

☐ Payments for all waiver and other State plan services will be made through an approved Medicaid Management Information System (MMIS).

☐ Payments for some, but not all, waiver and State plan services will be made through an approved MMIS. A description of the process by which the State will maintain an audit trail for all State and Federal funds expended, and under which payments will be made to providers is attached to this Appendix.

☒ Payment for waiver services will not be made through an approved MMIS. A description of the process by which payments are made is attached to this Appendix, with a description of the process by which the State will maintain an audit trail for all State and Federal funds expended.

☐ Other (Describe in detail):

## b. BILLING AND PROCESS AND RECORDS RETENTION

1. Attached is a description of the billing process. This includes a description of the mechanism in place to assure that all claims for payment of waiver services are made only:
  - a. When the individual was eligible for Medicaid waiver payment on the date of service;

- b. When the service was included in the approved plan of care;
- c. In the case of supported employment, prevocational or educational services included as part of habilitation services, when the individual was eligible to receive the services and the services were not available to the individual through a program funded under section 602(16) or (17) of the Individuals with Disabilities Education Act (P.L. 94-142) or section 110 of the Rehabilitation Act of 1973.

  X   Yes

       No. These services are not included in this waiver.

- 2. The following is a description of all records maintained in connection with an audit trail. Check one:

       All claims are processed through an approved MMIS.

  X   MMIS is not used to process all claims. Attached is a description of records maintained with an indication of where they are to be found.

- 3. Records documenting the audit trail will be maintained by the Medicaid agency, the agency specified in Appendix A (if applicable), and providers of waiver services for a minimum period of 3 years.

c. PAYMENT ARRANGEMENTS

- 1. Check all that apply:

  X   The Medicaid agency will make payments directly to providers of waiver services.

       The Medicaid agency will pay providers through the same fiscal agent used in the rest of the Medicaid program.

       The Medicaid agency will pay providers through the use of a limited fiscal agent who functions only to pay waiver claims.

  X   Providers may *voluntarily* reassign their right to direct payments to the following governmental agencies (specify):  
Counties

Providers who choose not to voluntarily reassign their right to direct payments will not be required to do so. Direct payments will be made using the following method: Please see attachment F-1

- 2. Interagency agreement(s) reflecting the above arrangements are on file at the Medicaid agency.

**ATTACHMENT F-1****BILLING PROCESS,  
AUDIT TRAIL AND RECORDS RETENTION****BILLING PROCESS**

Most waiver services are paid and tracked through the State's automated Social Services Payment System (SSPS). The State's A-19 invoice review and payment system is used to pay for services (e.g., most community participation services) not incorporated into the SSPS system, with electronic verification of client eligibility and vendor charges. The County Human Resource Information System (CHRIS) is used to track services funded through the counties (e.g., most community participation services).

**Overview of the Social Service Payment System (SSPS)**

The Social Service Payment System (SSPS) authorizes the delivery and/or purchase of services for recipients, collects required state and federal statistical and management data, and initiates the payment process for purchased services. DSHS organizational and program units use this system to authorize expenditures for social services.

Attachment F-2-a from the SSPS Manual explains the edits that prevent input errors in SSPS payment authorizations.

On the basis of service codes, SSPS expenditure information interfaces with the department's accounting system (Financial Reporting System/Agency Financial Reporting System-FRS/AFRS).

Division of Developmental Disabilities (DDD) Central Office staff maintain an account coding crosswalk that links waiver-covered SSPS service codes with the FRS/AFRS system.

**Overview of the County Human Resource Information System (CHRIS)**

Billings for services (e.g., most community participation services) contracted through the counties are submitted monthly by each county to the department. Each billing includes the program name (e.g., supported employment services, community access services), a list of clients that were in the program that month, identification of those clients on each waiver, the total units of service provided by the program, the cost per unit of service, and the amount billed the division for each client.

Providers who choose not to voluntarily reassign their right to direct payments will not be required to do so. Direct payments will be made through the SSPS system. Charges billed to the waiver program for supported employment services exclude any wages earned by recipients. Client hours worked or spend on site are listed on billings separately from the hours of service provided the client. Department (e.g., Single State Agency) payments are only for hours of service provided.

Payment is made on A-19 invoice vouchers for all day programs and supported employment services. Information on total payments for Waiver and non-waiver clients by service type is carried forward to the A-19 by Division accounting staff.

### **Overview of the A-19 Invoice Voucher**

The A-19 invoice voucher is a state payment form that identifies a request for reimbursement of environmental modifications and supported employment/day program services. The A-19 contains and/or is accompanied by support documentation, such as CHRIS forms, that identifies all waived services for waiver clients, units of service, and rates per unit of service. The A-19 invoice vouchers are manually coded and processed through the state's vendor payment system.

### **AUDIT TRAIL**

All payments are backed by an audit trail. The trail begins prior to delivery of service to the individual recipient, and follows through to the claim for federal financial participation (FFP). Key steps in the audit trail include:

- Verification of client and provider eligibility for Medicaid;
- Service authorization;
- Verification of service delivery;
- Invoicing and payment; and
- Calculation of FFP.

**Client Eligibility:** Individual client case records document the recipient's eligibility for the waiver. Persons verified by the DDD case manager as meeting all eligibility requirements and placed on the waiver are identified in the Common Client Data Base (CCDB). The CCDB is a division-specific database consisting of client characteristic/status information provided and maintained by regional DDD staff. It is a computer-based system for which Division staff have data input and systems responsibility. Information on client eligibility is maintained in client case records for a minimum of five (5) years.

**Provider Eligibility:** All providers of waiver services must hold current contracts/provider agreements, which define the services to be provided, and the payment for those services. Contract agreements Additionally require providers to document and retain records of all services and charges for at least three (3) years after service delivery, and to make such records available on request for state and federal inspection and audit.

**Service Authorization:** Waiver services are authorized prior to service delivery by the DDD case manager responsible for the recipient's individual written plan of care. Case managers ensure that those services authorized are included in the approved plan of care. Service authorizations specify the client; the type and amount of service to be provided; the begin and end dates for delivery of the service, the provider; the payment rate for the service; a source of funds code designating if the service is to be provided and charged under the waiver; and identification of the case manager authorizing the service.

Services paid under the automated SSPS system are authorized electronically. Records of electronic authorizations are retained for a minimum of three (3) years on microfiche. Paper authorization forms for services paid under the manual A-19 system are retained in the official client records for a minimum of five (5) years.

**Service Delivery:** All providers are required to retain records which document actual service delivery on an individual recipient basis. These records must be in addition to and document information contained on the billing document. The specific format and content of such records varies according to the particular service provided. Typical documentation includes records of days attended, hours of services delivered, specific service interventions used, and progress toward individual training plan objectives.

### **Records Maintained by Providers**

Contract agreements with providers of waiver services require providers to document and retain records of all services and charges for at least three (3) years after service delivery. Typical documentation includes records of days attended, hours of services delivered, specific service interventions used, and progress toward individual training plan objectives.

Acute care and other regular state plan services are paid and tracked through the State's Medicaid Management Information System (MMIS). No waiver services are paid or tracked through the MMIS.

**Service Invoicing and Payment:** Completion of the electronic SSPS service authorization results in automatic issuance of an invoice to the provider for each authorized service. The invoice identifies the individuals authorized to receive the particular service. The provider includes on the invoice the type of unit (e.g., hour, day), the number of units delivered during the month to each client, signs a certification statement, and returns it to the state for processing. Upon return to the state, it is entered into an electronic database and electronically cross-checked to verify consistency with authorized service types, delivery dates, service amounts, and unit rates; after which a warrant is issued.

**FFP:** The FFP for waived services is calculated through the state's approved and automated cost allocation plan. The FFP is collected through two payment systems: one automated (SSPS) and one manual (Invoice voucher A-19). Both payment

systems' accounting information is processed through the State of Washington Agency Financial Reporting System (AFRS) and the Department of Social and Health Services Financial Reporting System (FRS) which includes the Federal Cost Allocation Plan.

## **RECORDS RETENTION**

### **Records Maintained by the Medical Assistance Unit**

The single state agency for Washington State's Medicaid program is the Department of Social and Health Services. The Medical Assistance Administration of the Department of Social and Health Services is the Medical Assistance Unit within the department. The Medical Assistance Administration maintains microfilm copies of provider billing documents for regular state plan services on-site for five (5) years and in archives for an additional two (2) years. Computer records of Medicaid payments for regular state plan services are maintained for ten (10) years. On-line access to computer records of Medicaid payments for regular state plan services is available for payments going back three (3) years. The MMIS extended database of paid claims goes back an additional two (2) years. The MMIS claims payment history goes back an additional five (5) years.

### **Records Maintained by the Division of Developmental Disabilities**

Information on client eligibility is maintained in official client case records for a minimum of five (5) years. These records are maintained in DDD regional and local offices.

Copies of provider contracts are maintained for a minimum of five (5) years in DDD regional offices.

### **Records Maintained by the Division of Administrative Services**

Records of electronic authorizations for payment are retained for a minimum of three (3) years on microfiche, and on computer tape indefinitely. Paper authorization forms for services paid under the manual A-19 system are retained in the official client records for a minimum of five (5) years. Backup documentation for CMS-64 Reports is maintained for a minimum of three (3) years.

The waiver will be amended as necessary to accommodate additional waiver recipients.

\*\*From Table 3 below.

Since the extent to which additional funding will allow for expansion of the waiver remains to be determined, no growth in the number served is assumed during the waiver period. As additional funding becomes available, waiver amendment requests to increase the number served will be submitted.

The basis for projections of the phase-out of waiver recipients (Table 3) is the information contained in Table 4 below, which includes data for CAP Waiver recipients from 7/1/2001 through 6/30/2002 (SFY02, the fifth waiver year of the waiver renewal period). Based on experience during SFY02, an estimated 4% of individuals on this waiver will leave the waiver each year.

DERIVATION/PROJECTION OF FACTOR D

Utilization and expenditures are based upon actual utilization and expenditures for this group of clients during FY02 (7/1/01-6/30/02) projected through the course of the waiver period, with the exceptions identified below.

Utilization and expenditures for a) environmental accessibility adaptations, b) specialized medical equipment and supplies, c) physical therapy services, d) occupational therapy services and e) speech, hearing and language services are **not** based on service utilization during FY02.

Projections of the use of environmental modifications are based on program staff estimates, as historical data are not readily available. Since the use of specialized medical equipment and supplies, physical therapy, occupational therapy and speech, hearing and language services by this population during FY02 was negligible, but these services are used from time to time by this population, staff estimates of minimal use (i.e., 0.2% of the total waiver population) of these services in future years have been included.

#### Utilization

The total number using each service is based on the percent of this group on the waiver at any time during FY02 that used the service, with the exceptions noted above.

The number of units used is based on the average number of service units used per each month on the waiver during FY02 for this group applied to the total months on the waiver projected for each waiver year, with the exceptions noted above. Utilization of specialized medical equipment and supplies, physical therapy services, occupational therapy services, and speech, hearing and language services is based on utilization by all current waiver clients during FY02.

#### Expenditures

Projected expenditure per unit of service is based on actual expenditures per unit of service during FY02 (with the exceptions noted above), trended forward by 1.5% to reflect the vendor rate increase provided on 7/1/2002.

Expenditures per unit for specialized medical equipment and supplies, physical therapy services, occupational therapy services, and speech, hearing and language services are based on the cost per unit for all current waiver clients during FY02.

The 1.5% trend factor does not apply (and was not applied) to the service costs for environmental accessibility adaptations, state-staffed supported living (residential habilitation) and transportation (i.e., mileage reimbursement). No additional trend factor (e.g., the Consumer Price Index for All Urban Consumers) has been applied, since given the state's current fiscal situation, no vendor rate increases are anticipated during the course of the waiver time period.

## METHODS USED TO EXCLUDE PAYMENTS FOR ROOM AND BOARD

The purpose of this Appendix is to demonstrate that Medicaid does not pay the cost of room and board furnished to an individual under the waiver.

- A. The following service(s), other than respite care\*, are furnished in residential settings other than the natural home of the individual(e.g., foster homes, group homes, supervised living arrangements, assisted living facilities, personal care homes, or other types of congregate living arrangements). (Specify):

\*NOTE: FFP may be claimed for the cost of room and board when provided as part of respite care in a Medicaid certified NF or ICF/MR, or when it is provided in a foster home or community residential facility that meets State standards specified in this waiver.)

- B. The following service(s) are furnished in the home of a paid caregiver. (Specify):

Below is an explanation of the method used by the State to exclude Medicaid payment for room and board.

All individuals on this waiver will receive services in their own home. Rent or mortgage payments and food costs are paid by the individual from her/his earned and/or unearned income.

**APPENDIX G-4**METHODS USED TO MAKE PAYMENT FOR RENT AND FOOD EXPENSES OF AN  
UNRELATED LIVE-IN CAREGIVER

Check one:

- X   The State will not reimburse for the rent and food expenses of an unrelated live-in personal caregiver who lives with the individual(s) served on the waiver.
- The State will reimburse for the additional costs of rent and food attributable to an unrelated live-in personal caregiver who lives in the home or residence of the individual served on the waiver. The service cost of the live-in personal caregiver and the costs attributable to rent and food are reflected separately in the computation of factor D (cost of waiver services) in Appendix G-2 of this waiver request.

Attached is an explanation of the method used by the State to apportion the additional costs of rent and food attributable to the unrelated live-in personal caregiver that are incurred by the individual served on the waiver.

APPENDIX G-5

FACTOR D'

LOC: ICF/MR

NOTICE: On July 25, 1994, HCFA published regulations which changed the definition of factor D'. The new definition is:

"The estimated annual average per capita Medicaid cost for all other services provided to individuals in the waiver program."

Include in Factor D' the following:

The cost of all State plan services (including home health, personal care and adult day health care) furnished in addition to waiver services WHILE THE INDIVIDUAL WAS ON THE WAIVER.

The cost of short-term institutionalization (hospitalization, NF, or ICF/MR) which began AFTER the person's first day of waiver services and ended BEFORE the end of the waiver year IF the person returned to the waiver.

Do NOT include the following in the calculation of Factor D':

If the person did NOT return to the waiver following institutionalization, do NOT include the costs of institutional care.

Do NOT include institutional costs incurred BEFORE the person is first served under the waiver in this waiver year.

If institutional respite care is provided as a service under this waiver, calculate its costs under Factor D. Do not duplicate these costs in your calculation of Factor D'.

APPENDIX G-5

FACTOR D' (cont.)

LOC: ICF/MR

Factor D' is computed as follows (check one):

- ☐ Based on HCFA Form 2082 (relevant pages attached).
- ☒ Based on HCFA Form 372 for Waiver # 0050.90.R2 which served this population (see Attachment G-5-a).
- ☐ Based on a statistically valid sample of plans of care for individuals with the disease or condition specified in item 3 of this request.
- ☐ Other (specify):

## PROJECTION OF D'

TABLE 1. PROJECTION OF FACTOR D' VALUES

Waiver Time Period	<u>Factor D'</u>
Base Year: 7/1/2001-60/30/2002	<b>10,453</b>
Waiver Year 1	<b>10,610*</b>
Waiver Year 2	<b>10,610</b>
Waiver Year 3	<b>10,610</b>

\*10,610 = (10,453 X 1.015)

Factor D' values represent the Factor D' value from the 372 Report for Waiver #0050.90.R2 (the individuals that will be on this waiver are a subset of those served by Waiver #0050.90.R2) for the fifth year (7/1/01 - 6/30/02) of the waiver renewal period. A single trend factor of 1.5% has been applied to reflect a 7/1/02 vendor rate increase. No other trend factors have been applied, because it is anticipated no vendor rate increases will be provided during the course of the waiver period.

## APPENDIX G-6

FACTOR G

LOC: ICF/MR

The July 25, 1994 final regulation defines Factor G as:

"The estimated annual average per capita Medicaid cost for hospital, NF, or ICF/MR care that would be incurred for individuals served in the waiver, were the waiver not granted."

Provide data ONLY for the level(s) of care indicated in item 2 of this waiver request.

Factor G is computed as follows:

- \_\_\_\_\_ Based on institutional cost trends shown by HCFA Form 2082 (relevant pages attached). Attached is an explanation of any adjustments made to these numbers.
- \_\_\_\_\_ Based on trends shown by HCFA Form 372 for this waiver (which is being renewed), which reflect costs for an institutionalized population at this LOC. \_\_\_\_\_ provides an explanation of these projections.
- \_\_\_\_\_ Based on actual case histories of individuals institutionalized with this disease or condition at this LOC. Documentation attached.
- \_\_\_\_\_ Based on State DRGs for the disease(s) or condition(s) indicated in item 3 of this request, plus outlier days. Descriptions, computations, and an explanation of any adjustments are attached to this Appendix.
- X   Other (specify): Based on the actual per person per day average cost for ICF/MR services in the State of Washington for SFY02 (7/1/2001-6/30/2002) times the average number of days individuals will be on this waiver. See Attachment G-6-a.

If institutional respite care is provided as a service under this waiver, calculate its costs under Factor D. Do not duplicate these costs in your calculation of Factor G.

## PROJECTIONS OF FACTOR G

TABLE 1. PROJECTIONS OF FACTOR G VALUES

Time Period	Average Daily Cost of ICF/MR Care	Average # of Days in an ICF/MR for Waiver Clients in the Absence of the Waiver*	Projected Factor G Values
7/1/2001-6/30/2002	404.70		
Waiver Year 1	405.10**	361.0	146,241
Waiver Year 2	405.51**	358.8	145,497
Waiver Year 3	405.92**	358.5	145,522

\*From Appendix G-2.

\*\*Increased by 0.1% each year to reflect a vendor rate increase of 1.92% for facilities providing 6.6% of ICF/MR services ( $.001 = .0192 \times .066$ ).

Values for Factor G are based upon actual per day costs for ICF/MR care in the state of Washington during SFY02 (7/1/2001 - 6/30/2002) times the number of days clients on the waiver would be in an ICF/MR if the waiver did not exist. In the absence of the waiver, waiver clients would be in an ICF/MR for the same number of days that they were on the waiver. Average number of days on the waiver is contained in the projections of Factor D (Appendix G-2).

Since 6.6% of ICF/MR bed days are provided by private contractors which received a 1.92% vendor rate increase on 7/1/2002, the FY02 average cost has been increased by 0.1% (i.e.,  $.0192 \times .066$ ) each year. (It is anticipated these vendors will receive a similar rate increase each year of the waiver period.) The remainder of ICF/MR bed days (i.e., 93.4%) are provided by state-run institutions. It is anticipated no state employee pay raises will be provided during the waiver period.

**APPENDIX G-7**

FACTOR G'

LOC: ICF/MR

The July 25, 1994 final regulation defines Factor G' as:

"The estimated annual average per capita Medicaid costs for all services other than those included in Factor G for individuals served in the waiver, were the waiver not granted.

Include in Factor G' the following:

The cost of all State plan services furnished WHILE THE INDIVIDUAL WAS INSTITUTIONALIZED.

The cost of short-term hospitalization (furnished with the expectation that the person would return to the institution) which began AFTER the person's first day of institutional services.

If institutional respite care is provided as a service under this waiver, calculate its costs under Factor D. Do not duplicate these costs in your calculation of Factor G'.

APPENDIX G-7

FACTOR G'

LOC: ICF/MR

Factor G' is computed as follows (check one):

- ☐ Based on HCFA Form 2082 (relevant pages attached).
- ☐ Based on HCFA Form 372 for this waiver.
- ☐ Based on a statistically valid sample of plans of care for individuals with the disease or condition specified in item 3 of this request.
- ☒ Other (specify): Based on the actual cost for ICF/MR residents for SFY01 (7/1/00 - 6/30/01) trended forward based on the and vendor rate increases provided on 7/1/2001 and 7/1/2002. See Attachment G-7-a.

## PROJECTIONS OF FACTOR G'

TABLE 1. PROJECTED FACTOR G' VALUES

Time Period	<u>Factor G'</u>
Base Year: 7/1/2000 - 6/30/2001	<b>\$2,072</b>
Trend Factor (1.021 X 1.015)	<b>X 1.036</b>
Waiver Year 1	<b>2,147</b>
Waiver Year 2	<b>2,147</b>
Waiver Year 3	<b>2,147</b>

Projected Factor G' values are based on actual Medicaid State Plan costs for ICF/MR residents during SFY01 (7/1/00 - 6/30/01) trended forward based on vendor rate increases provided on 7/1/2001 (2.1%) and 7/1/2002 (1.5%).

No additional trend factors have been applied because it is anticipated that no vendor rate increases will be provided during the waiver period. (SFY01 data were used because Medicaid vendors have up to one year to bill the MMIS for services, and more recent expenditure data might be incomplete.)
